O B J E C T I V E

A transitioning HVAC technician into an aspiring coding apprentice who is qualified and professional with a handful of projects using Front End and Back End technologies with strong creative skills and enjoys collaborating with others.

S K I L L S

- JavaScript (Node.js)
- HTML/CSS
- Web Design/Wire-framing
- Front End/Back End Coding
- Relational Databases (MySQL)
- AWS Cloud Practicioner

R E L E V A N T   E X P E R I E N C E

SOCIAL INJUSTICE - QUIKBYTES

This collaborative group project focuses on solving hunger insecurities in low income areas

- Developed a site with functionality that required the user to input information and made the website responsive for mobile users.
- Implemented wire-framing to plan out a graphical design style for the pages.
- Gained experience in working with a team to solve error issues, and deploy the website.

BABYS-R-US

Ecommerce project where you can shop for baby products

- Designed an online store that displays products.
- Applied CSS grid to display the products in coloumns and rows.
- Used my time management skills to effectively break down the project into small tasks to comprise the overall site over the span of two weeks.

TRINITY UNIVERSITY CULINARY ARTS VOLUNTEER

Assisted with community events in
preparing food, dining and stage.
San Antonio, Tx
09/18 - 01/20

RELEVANT EXPERIENCE

TASK TRACKER APP

Full Stack Project that allows you to keep track of your tasks

- Integrated the Back End Coding to connect the server to Node
Express using HTTP Requests.
- Included a relational database with MySQL to take in fields by
adding queries to manipulate the table.
- Showcased Javascript functions to form a list that displays on the
browser window to add, remove or edit task fields.

PLAN IT FOR THE PLANET

Helps resolve real world issues with our main focus in pollution

- This project focuses on implementing API's; we included two 3rd
party API's and create our own API.
- Our first party API pulls data from a JSON file that we created,
and shows that data being displayed on a line graph that was
made with Javascript.
- Used collaborative skills to keep up with tasks and communicated
on team schedules to complete the project.

WORK EXPERIENCE

HVAC TECHNICIAN

Temperature Pro at San Antonio, Tx

02/20 - 04/22

- Proactively solving issues on modern units using digital control
panels for troubleshooting system error codes.
- Installed, maintained, repaired air-conditioning, ventilation, heating
and refrigeration systems.
- Conducted diagnoses on system operating conditions using
central controls.
